

Dear Hiring Manager

I hope this message finds you well.

My name is Jessica Ramathibe, I'm reaching out to explore suitable opportunities that align with my financial services background while allowing me to transition into a non-client-facing role focused on analytics, strategy, or operational support.

I hold an **PgDip in Financial Markets (2018)**, and I also received a **PASA Foundational Certificate** during the same year, which equipped me with essential knowledge of South Africa's national payment system and regulatory landscape.

Professionally, I bring over six years of experience in banking, including:

- **2.5 years as a Digital Banking Consultant**, supporting the implementation and enhancement of digital platforms.
- **3.5 years in Secured Lending**, servicing clients with their home loans and vehicle & asset portfolios with a strong focus on credit assessment, compliance, and internal coordination.

In addition to my professional experience, I've invested in up-skilling to support my pivot into more strategic and analytical roles:

- In November 2024, I earned the **AWS Certified Cloud Practitioner Certificate**, providing a solid foundation in cloud computing and digital transformation.
- I'm currently enrolled in a **6-month Data Science Bootcamp with HyperionDev**, gaining practical experience in Python programming, SQL, data analysis with visualisation tools such as Tableau and machine learning (ends October 2025)

I'm particularly interested in junior roles such as:

- Data Scientist or Business/Data Analyst
- FinTech/Cloud Projects
- Cloud Computing
- Credit Risk Analyst
- Product Strategy or Internal Digital Transformation Roles
- Compliance, Governance, or Operational Risk
- Investment Operations or Fund Administration

Key Strengths I Offer:

- Deep understanding of financial products, lending operations, and regulatory frameworks
- Familiarity with payment systems, digital banking platforms, and cloud fundamentals (AWS)
- A growing skill set in data analytics and visualisation
- A proactive mindset, with the ability to adapt quickly in fast-changing environments

I am happy to share my CV with you. Thank you for your time and consideration.

Kind regards,
