

Good day

I am writing to express my interest in the Client Analyst position. With a Postgraduate Diploma in Financial Markets, a PASA Certificate, and over six years of banking experience, including roles as a Digital Banking Consultant and Universal Banker. I have developed strong client-facing, analytical, and operational skills that align well with the responsibilities of this role.

My experience in managing diverse client interactions has equipped me with the professionalism, communication capabilities, and attention to detail required to support Client Executives in maintaining strong institutional relationships. I am experienced in coordinating client requests, maintaining accurate records, and ensuring service delivery standards are met.

I am also currently shadowing a Financial Risk Data Analytics team, further deepening my understanding of data-driven decision-making in financial services. My combination of financial knowledge, client-centric approach, technical aptitude, and operational understanding positions me well to add value to your team.

Thank you for considering my application.

Kind regards,

Jessica
